**CITY OF SAN ANTONIO
SAN ANTONIO METROPOLITAN HEALTH DISTRICT
CITY COUNCIL AGENDA MEMORANDUM**

TO: Mayor and City Council

FROM: Fernando A. Guerra, MD, MPH, Director of Health

SUBJECT: Donations for the Special Immunizations Promotion Project

DATE: January 26, 2006

SUMMARY AND RECOMMENDATIONS

This ordinance authorizes the City Manager to accept an additional cash donation in the amount of \$500.00 from the Holt Company of Texas to support the Special Immunizations Promotion Project in the San Antonio Metropolitan Health District (SAMHD) for the period ending December 31, 2005 and revises the project budget.

Staff recommends approval.

BACKGROUND INFORMATION

The San Antonio Metropolitan Health District (SAMHD) operates an immunization program city-wide that provides routine childhood, adult and travel immunizations to local residents through a host of community partners. This immunization program is augmented through media campaigns, public service announcements, provider meetings and similar social marketing efforts that promote immunizations in the community and keep medical providers apprised of changes in vaccine availability and administration procedures. Fortunately, vaccine manufacturers, media outlets, and other businesses are willing to support such efforts as a service to the community.

On November 30, 2000 City Council passed an ordinance to account for these grants and donations being offered through the establishment of the Special Immunizations Promotion Project. To date, receipts to this fund total \$100,292.00.

In December, 2005 an additional donation in the amount of \$500.00 was offered by the Holt Company of Texas toward this effort. Through this ordinance this donation will be accepted and placed into the fund ending December 31, 2005. The residual balance of the fund when ascertained will be transferred into a new five year fund established for future use.

POLICY ANALYSIS

This activity is used to promote immunizations during certain times of the year. This includes National Infant Immunization Week (April) and National Immunization Awareness Month (August). These activities offer the opportunity to educate healthcare providers (both public and private), local agencies and the community about the importance of immunizations. These groups are located throughout the city but special emphasis is given to those providers in the targeted nine zip codes: 78201, 78207, 78210, 78211, 78223, 78227, 78228, 78237, and 78242. For example, one of the activities includes the National Infant Immunization/Vaccine For Children (VFC) Provider Appreciation Breakfast in April.

This event is designed to recognize the accomplishments of our 223 VFC providers of which 32% are located in these nine targeted zip codes.

Acceptance of this donation will continue the long-standing practice of utilizing contributions from the business community and other sources to support local public health programs of the City. The \$500.00 will be used to support the promotion of immunizations in our community and special outreach activities within area schools.

FISCAL IMPACT

This donation totaling \$500.00 will augment the Special Immunizations Promotion Project operated by the SAMHD. The additional funding will increase the project budget to \$100,792.00. Said monies were used to support yearly back-to-school immunization drives conducted in August as well as activities during National Infant Immunization Week (in April) and National Adult Immunization Week (in October). Future contributions to promote immunizations will be deposited into a new five year fund established in December 2005 for future use with City Council approval.

COORDINATION

The SAMHD has coordinated with the Office of Management and Budget and the Finance Department for accurate accounting of the funds.
